# President's Report

By Prof. V. K. Sharma  
Bhagwant University, Ajmer  
Convocation 2020 - Saturday, 16<sup>th</sup> April 2022

Distinguished Chief Guest of the Convocation Er. Ranjit Nigam, Entrepreneur, Sales Coach and Mentor, Dr. Anil Singh Chairman Board of Management, Bhagwant University, Members of the Board of Management, Members of the Academic Council, Invited Guests, Graduating Students, Faculty and Staff of the University, Parents, Guardian, Ladies and Gentleman. It is indeed my pleasure to welcome you all to the Annual Convocation 2020 of Bhagwant University.

I take this opportunity to thank Er. Ranjit Nigam for accepting our Invitation for being the Chief Guest for the Convocation.

Bhagwant University was established in 2008 by Act No. 18 of Govt. of Rajasthan as per Section 2f of the UGC Act of 1956. University offers various courses having Faculty of Engineering and Technology, Faculty of Management and Business Administration, Faculty of Pharmacy, Faculty of Law, Faculty of Computer Science and Application, Bhagwant College of Education, Faculty of Humanity & Social Science, Faculty of Life Science & Applied Science, Faculty of Agriculture Science & Research, Faculty of Journalism & Mass Communication, Faculty of Medical Science, Faculty of Aviation & Hospitality, Faculty of Fire and Safety Management, University departments offer Ph.D Research programmes in selected areas of specialization. Number of degrees awarded in 2020 for different UG, PG & Ph.D Course/Branches are 1160.

It has been a year with Covid pandemic and online teaching. However our faculty and staff conducted examinations as and when govt. allowed Covid relaxations. All exams were conducted on campus and results declared in time. Hence, we developed a name in the region that instead of promotion and online exams, proper campus exams were conducted. Despite stiff competition, University has been able to attract good numbers of admission, and good numbers of placements have taken place. We have sizable number of Foreign Students too from various Countries like Bhutan, Nepal, Sudan, Yemen, Eriteria etc numbering around 200. Students have been excelling in their field of study and have participated in curricular activities including sports, wining prizes, medals and awards.

Faculty members have participated in online teaching learning and other academic activities including research and consultancy. Research work done by registered research scholars have been published in reputed national and international journals and conferences.

Departments have augmented the laboratory facilities by processing additional equipments, machinery, instruments and software and computer hardware. Our Library has a good physical infrastructure and wealthy knowledge base with books procured from various renowned publishers, periodicals, journals and magazine, E-Journals and Digital Library Network. To enable the faculty and students to think globally and give them International exposure International tours have been organized earlier, but due to Covid could not be arranged this year.

Overall the University has done satisfactory work and aims to improve in future years through strengthening its Infrastructure, Faculty and adding new cutting edge technology programs for benefit of society.

# Brief Introduction of Chief Guest

## Er. Ranjit Nigam

### Entrepreneur, Sales Coach & Mentor, New Delhi

Ranjit Nigam has done his B.E. Electronics & Communication from NIT (KREC) Surathkal in 1984 and MBA from Annamalai University in 1990. He has also been trained by Prof. Philip Kotler (father of Modern Marketing).

He is a veteran of the Media & Telecom Industry. He has been responsible for bringing in several new technologies into India with the thrust on generating local employment opportunities. He ensured local manufacturing of TV Monitors under patent of Barco NV, Belgium at GCEL, Ahmedabad for use at Doordarshan; a local manufacturing of Audio turntables under patent of EMT, France at Meltron, Pune for use at All India Radio; establishing a software development unit in Chennai for BarcoNet, Belgium; establishing an Operation & Development centre for Conax AS, Norway, at Noida. He has been instrumental in launching the first private news channel from India, in digitizing the Indian cable industry, in bringing in new technology for broadcasting satelling channels with higher modulation frequencies, launching Conditional Access solution in India.

He has also been instrumental in development of new products and solutions. He has drafted the specifications and designed a new conditional access system which does away with the use of a set-top box – the system is currently in deployment with a leading broadcaster in Germany. He assisted the development of a practical machine learning technology using AI to create contextual visual storytelling elements, including semi-automated video production.

He also led the team of Orange Telecom, France to implement the launch of 5G network in UK.

Apart from the solutions in the field of Media and Telecom, he has also developed Active & Passive Respiratory products to combat pollution, contamination & high-altitude problems. He is also involved in mentoring start-up companies in various fields including Cyber-security, Broadband product development, green automobiles, e-commerce, and cloud kitchens.

### Entrepreneur, Sales Coach & Mentor, New Delhi

Dr. Anil Singh, Chairman, Bhagwant University; Professor Dr. Virendra Kumar Sharma, President, Bhagwant University, Members of the Board, Staff, Distinguished Guests, And, most importantly, our graduating students.

It is an honour and a great pleasure to be here to celebrate the graduation of the Class of 2022. □

To the graduating students—this is your day and I congratulate you on your achievement—well done. May I ask you all to put your hands together to applaud the success of the students who are graduating. This is a defining moment for all of you. It is a day of a celebration – a day when you look back on the many challenges you have overcome, and look forward to those that lie ahead, knowing that you have the skills and knowledge needed to meet them. It is a day that you would never forget. You are fortunate that you that you are graduating from an institution that has prepared you exceptionally well.

No doubt the time will come in your own careers when you think back to today and are amazed at how far you have travelled, and how much you have achieved. That is the power of a great education: by turning you into a lifelong learner, it makes it possible to adapt, to grow and to do what you once would have thought inconceivable.

Students who are graduating, I know that you have made many sacrifices in order to earn your degrees. I know your journey was not easy. But if the mountain was not steep, and the climb did not test your resolve, the view would not be such a revelation, or such an inspiration. Now you stand at the peak, and opportunity stretches out before you.

But I believe it is important on this occasion to recognize not only your own efforts but the efforts of those who have supported you on your journeys. I have in mind your family members. The opportunity to pursue higher education rarely comes without a cost to the student's family – whether that cost is financial, or whether it involves sacrifices of time, or the accumulation of responsibilities that allow the learner to focus on his or her studies. Try and keep out of trouble; however, if you are faced with a challenge, remember—parents love you unconditionally, and will help you through the ups and downs, and the sooner you share the issues with them, remedial measures are less expensive, less painful and solutions come faster. To the parents, trust your child, quite often we underestimate their ability to deal with issues and create a relationship and an environment of dialogue regardless of the issue.

Similarly, I would note that none of us would be here today were it not for the faculty and staff of the University. Can we have a round of applause for the faculty and the staff of the University!!!

I was fortunate to witness the unique features of the University's program, and I have great admiration for the emphasis the University places on life-long learning and development, positive engagement with the community, developing leadership skills; qualities that will positively impact your communities, your country and the world at large. May I take this opportunity of expressing my appreciation to staff of Bhagwant University in the impressive way they shared the feedback on the Class of year 2022—awesome; great team that made things happen; fun loving; overachievers; motivators; innovators; different and from diverse backgrounds but gelled brilliantly as a team. Provided you build on these strengths from here on, I am confident that your future in the real world is secure! Many business leaders strive to build such qualities with mixed success. I hope that in the future I can claim to have been the Chief Guest at the graduation of the future Mukesh Ambani, N.R. Narayan Murti, Azim Premji, or a future Head of State!!!

Ladies and gentlemen, the importance of higher education to the future of India can hardly be overstated. The amount of knowledge and technology that we can draw upon today in order to solve the many challenges we face is staggering. The smartphones we carry in our pockets are more powerful devices than the supercomputers that were in use when I

was studying for my Engineering. Yet we still face a dilemma: if we don't have enough people to act on the basis of that knowledge, or to use that technology, very little will change.

And, similarly, the Bhagwant University is the kind of institution we need more of: focused on quality and striving to make a difference in people's lives.

Above all, though, students who are graduating – we need you. We need every one of you, and all of your energy, passion and talent. We will be counting on you to develop the future scientists, engineers, economists, lawyers, writers, artists, entrepreneurs, policymakers and politicians that we need. It is a weighty responsibility that rests on your shoulders. But I have no doubt that you are equal to the task. You would not be sitting here today if that were not the case. I have no doubt that you will positively impact thousands of lives over the course of your careers. I have confidence in your talent, your determination, and the quality of the education you have received.

The University has prepared you not just on the academic front, but to play your part in helping communities improve their quality of life. This is a quality that you must build on—the developing world is littered with major environmental disasters, ecological disasters, and security issues! India, needs your input and you must at every stage of your life play your part in turning this unacceptable situation for the sake of our children and grandchildren.

It is not enough to simply try and get by in life - that does not move the world forward - you must strive to excel in everything you do - excellence in every task, large or small. The decisions you make starting today will determine what you become. Your academic journey is not over yet and you must be clear on the end result and how you wish to get there. You will face many challenges but this is what the “real world” is all about and the next phase in your life is a great training ground for your future success.

Do not be afraid to be fearless. We all must have goals and we will have fears about achieving them but it is how we handle those fears that determine whether or not and how quickly we get there. Not every project or task we undertake can be successful - when it is not successful, learn from the mistakes made, and take the necessary remedial measures on the next project.

I believe that in the developing world, governance standards will continue to improve if current and future leaders like yourselves insist on good governance and integrity. I urge you to bear this in mind when you are in positions of authority as it is the responsibility of each one of us to ensure that the developing world exploits its full potential.

Students who are graduating, I wish you all the best in your lives and careers. May you live - so that your lives matter, and may you make the world a better place for having passed through it. Finally, to the teaching staff, keep up your excellent work in helping shape future leaders and may God bless you all.

Jai Hind.

## == कुलगीत ==

है पुण्य धरा पर बसा हुआ, नित अविरल और अविराम है।

हम उस सागर के मोती है, जो भगवंत विद्याधाम है।

जहां संस्कृतियों का समावेश, जहां भांति-भांति की कलाएँ हैं।

सबको गूथे एक माला में, ज्योतिमय दीप जलाएँ हैं।

जय हिन्द से जिसकी सुबह जगे, होती जय हिन्द से शाम है।

हम उस सागर के मोती है, जो भगवंत विद्याधाम है।

जहां जाति-पाति सम्प्रदाय से उठकर, वसुधैव कुटुम्बकम कहते हैं।

ना सीमाएँ हैं देशों की, भाईचारे से रहते हैं।

संकल्पित है जहां हर इक जन, शुभकर्मों से पहचान हैं।

हम उस सागर के मोती है, जो भगवंत विद्याधाम है।

कर्मण्येवाधिकारस्ते का, जयघोष जहां पर होता है।

शास्त्रों और वेदपुराणों का, अक्षरशः पालन होता है।

सम्पूर्ण जगत में शिक्षा की, गाथा जिसकी पहचान है।

हम उस सागर के मोती है, जो भगवंत विद्याधाम है।
